Workplace of the future: less devices, more apps!

In the current business world, working environments and technology are evolving rapidly. Apps have become increasingly important and changed the way we communicate in our daily lives and at work.

Anywhere, anytime we want to share and access information with our peers, we want to work faster, more efficient, accelerate the workforce, automate workflows, enhance productivity, all at a lower cost.

Ricoh's Smart Integration and its brilliant apps help you to achieve these benefits.

Cloud Apps

RICOH Smart Integration (RSI) is a platform which provides cloud-based apps and document workflow integration across devices. Our easy-to-use apps connect your Ricoh multifunction printer (MFP), products and other smart devices, to popular third-party cloud services, so that important information becomes instantly accessible, ready to use and share.

Simply connect your Ricoh MFP, products and other smart devices, to external cloud services such as Dropbox, Google Drive, Office 365 and DocuWare, enabling you to work smarter and increase productivity.

With RICOH Smart Integration you can:

- Convert your hardcopy documents to editable digital formats, and store them on the cloud
- Reduce your office, print and paper costs
- Print documents from storage in the cloud, without IT servers
- Automate everyday document workflows to work smarter, faster and more cost effectively
- Initiate meetings from your interactive whiteboard, and share content via the cloud

Enhanced
Apps

- Scan to e-mail
 - Scan to Box / My Box

Control+ Packages

For added control, customers can use the advanced Control+ package - which is complementary with the other apps packages, and enjoy the benefits of reporting, easier remote configuration, secure serverless print and device error management.

Control your setup
Save time and money

Control your documents
Digitise to one place

Control your prints
Send from anywhere and log in to retrieve securely

Control your costs
Job log reporting by device, department, user

Control your users and apps
Workplace admin tool easy to navigate

Control your devices
Check whether RSI is active and if there are errors

Control+ is for customers who want additional control over their RSI setup, print costs, users and devices. It offers six main features:

- Easy Setup: Device Registration Wizard and user self-registration.
- Device Management: Monitor status of devices in real time and set up alert notifications.
- Reporting: Analyse device operation and usage, scheduled reports.
- Authentication: Card reader support.
- Follow Me Print: Print job sent to RSI Cloud, retrieved from any enabled device.
- Scan To Me: Scan documents to personal email address.

Enhanced
Apps

Control+

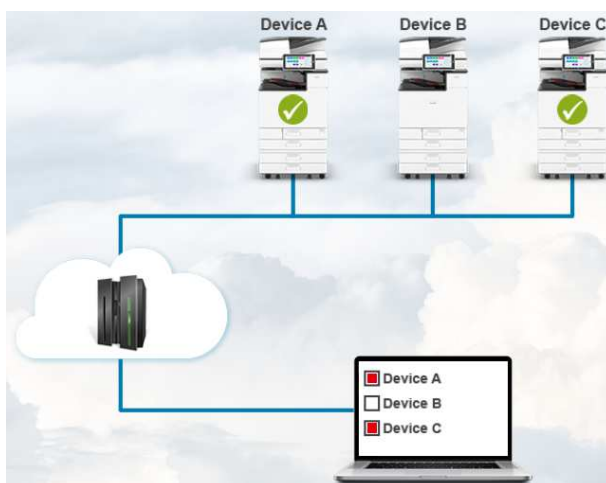

Key Benefits

- Customers save more time and money with self-service setup for users.
- Remove costly IT servers and move to serverless cloud print.
- Easily check which MFPs are RSI-activated and if they have errors to resolve.
- See what users are doing and further manage/reduce costs via Reporting module.
- Prevent unauthorised access to prints, as secure print enabled.

Suitable for

- Offices where paper documents are created or arrive and need to be processed for archiving and sharing.
- Those interested in accelerating digital transformation – looking to digitise their manual paper document workflow processes and work with the cloud.
